KUCHE SAFARIS | CONTRIBUTION TO USA CONSERVATION AND OTHERS.

Kuche Safaris is a basic and simple family-run outfit where we value the future of hunting very high. Conservation is an essential part of hunting to secure the future for our children. We realised your future is our future.

With 95% of our hunters coming from the USA we realised we can not only take but have to give back as well.

Through different programs involving CCA (Coastal Conservation Association), Delta Waterfowl and Ducks Unlimited we donated and contributed an estimate of \$550 000.00 USD back to conservation in the USA in just 2 years time.

We also support USA conservation and cancer research through the programs below:

- Black Dog
- Delta Waterfowl
- Guns for Cure
- Ducks Unlimited
- Fishing for Freedom
- CCA

ABOUT US

The Swahili word KUCHE, means to be busy and happy for the whole day. This is our promise to you. Kuche Safaris is a family run operation based in Limpopo. We hunt several different areas to ensure you have a joyfull and a memorable time. Kuche Safaris was founded in 2007 by Koos de Meyer after he gained experience as a freelance guide with some of the best operations at the time. Kuche Safaris hunt some of the most desired areas in different locations throughout South Africa. Cobus (son) is involved as a guide and Sharon (wife) takes care of the camp and the needs of the non-hunter.

HUNTING AREAS | SOUTH AFRICA

LIMPOPO PROVINCE: The Limpopo province is the hunting capital of South Africa and is a well known and highly promoted hunting region. Famous for it's thick Acacia thorny brush and sandy flat areas it provides for a close and personal hunt. Our hunting areas range from 3000 - 55 000 acres. Statistics have shown that these areas now have more game than 80 years ago. Therefore you can be sure to have a great African experience.

FREESTATE PROVINCE: Our hunting areas in the Freestate Province is a mere 3.5 hours drive from Johannesburg International Airport. These areas offer you some game species not found in the Limpopo. More open areas and longer shots are in the order of the day. Fun hunting and a lot of game to see. As a rule we do not charge for the travelling day between areas if both areas are hunted on one safari.

RIFLE & BOW IMPORTATION

To bring Rifles into South Africa is easy. We at Kuche Safaris will take care of your rifle importation free of charge, provided you send us the next documents 30 days prior to arrival in Johannesburg:

1. Stamped DA 4457 (from your local customs department)
2. Copy of Passport
3. Flight Itinerary
4. SAPS 520 (We will complete this on your behalf)

OR you can make your airline reservation through Gracy Travel (USA Based) and they will take care of this at a fee. For bows no documentation is required but it is advisable to get a DA4457. When flying through Europe or England make sure permits for rifles and bows are pre-arranged & issued.

- Balance to be paid on commencement of your safari.
- Deposits are NON-REFUNDABLE but can be carried over to the following year.
- Payments to be done in US \$ currency. No traveller's or bank cheques.
- We also have an American bank account for your convenience.

BUFFALO HUNTING

As a hunter most people have a quest. Due to the emphasis that is put on Buffalo hunting in the USA on TV, it created a huge demand for Buffalo and many roads lead to Kuche Safaris. We've had clients who've hunted, 1, 2 and 5 Buffalo on different safaris with us. Maybe the mystery of the danger aspect combined with a big bore rifle creates a different expectation in the hunt and then the self-challenging question "how will I do?" this, together with the feelings and questions around it creates a mystery to be challenged.

Buffalo hunting is always a challenge, from the pursue to making the right shot or when it's wounded, the challenge thereof speaks for itself. Sometimes a combination of everything. Getting close and personal with the "Black Death" certainly gets the heart pumping. The intense power, strength and will to survive of these beasts contributes to the challenges of a great hunt, it is a hunt that builds anxiety in you with every step you take. Many hunters shoot Buffalo on the first day, many on the last hour on the last day.

People ask me many times what makes a good trophy bull. Taste differs from hunter to hunter. A good quality trophy is definitely not a young 4-5 year old bull with a spread of 40". That is not a trophy. Rather wait a little longer, hunt & work a little harder and get a mature old bull - hard bossed, a real "Daggaboy". For Buffalo make sure you have the right equipment and make sure of your shot placement. A .375 with a quality 300gr. bullet is the minimum caliber required to legally hunt Cape Buffalo.

At Kuche Safaris we have built a reputation on delivering good quality bulls. We do not over-hunt our areas and constantly add new areas to our range of Buffalo hunting areas. You might hunt thick bushveld areas or even more open grassland. We travel to get you the best we can. With us you are not limited to size and can hunt what is available. We only hunt hard-bossed bulls which you can be proud of and what I would put on my wall.

With the amount of Buffalo we hunt every year, you can be assured of a well-experienced guide and a great experience. Our Buffalo packages are well priced and very desired.

!! No size limit

HUNTING WITH KUCHE SAFARIS

TAXIDERMMY

What do I do with my trophies? Another question asked many times. This is all up to you. I have seen good and bad work in both the USA and SA. Weather you decide to mount your trophies in the USA or South-Africa Kuche offers you a one stop shop.90% of our clients mount their trophies with us. We also take care of the preparation on trophies needed to be mounted in the USA. You have to either do all your mounting in South Africa or all in the USA. Trophies in one crate cannot be combined with raw and mounted trophies. Mounting trophies with Kuche Safaris is really affordable if compared to the average USA pricing.

PHOTOGRAPHIC SAFARIS

At Kuche Safaris we offer two tours that can be undertaken as a safari on its own as an add-on to your hunting safari.

| KRUGER NATIONAL PARK

Well known all over the world. Lots of Plainsgame, Buffalo and Elephant. With some breathtaking views you can experience first hand true African wildlife. Proclaimed in 1926 by President Paul Kruger, this park has a good and well known reputation as a great tourist destination.

Hereby a rough schedule:

DAY 1: Fly in
DAY 2,3 & 4: Tour through Kruger
DAY 5: Fly back home

Activities Includes:

- Blyderiver Canyon
- Elephant Interaction
- Lion Interaction

| TIGER FISHING

As a new adventure, Kuche Safaris now offers Tiger Fishing Safaris together with a visit to Victoria Falls on the great Zambezi River. This will be conducted either on the Zambia or Botswana side of the river depending on lodge availability.

To catch Tiger Fish is a must for an avid angler. Where else can you fish amongst Crocodile, Hippo & Elephant?

| VICTORIA FALLS

One should realize that travelling and seeing parts and different destinations in Africa is always good, exciting and will stay with you for a long time. Victoria Falls is different, not just another visiting destination, not just something to see but an experience you will see, participate, live and remember.

Our main tour last 4 days and you leave back from Vic Falls to your final destination on day 4 (to the USA having your connecting flight the same day) We make use of a good and clean high quality lodges in Vic Falls. All rooms are en-suite and the lodges have swimming pools, WI-FI and electricity with daily cleaning service.* 5 Star lodging available on request. Your professional hunter will take you to Victoria Falls and accompany you at all times.

Additional Activities at and around Vic Falls:

- Victoria Falls
- Helicopter Flights
- Sunset Boat cruise on the Zambezi river
- Elephant-back Riding
- Chobe National Park is very good and is definitely the highlight of this excursion
- This is a boat cruise with animal and bird watching while floating on Chobe river.
- After lunch a game drive along the Chobe river in the afternoon. (This is a full day excursion)
- Walk with Lions
- Bungee Jumping
- White water Rafting
- Gorge Swimming
- Curio Shopping for true African Curios

Hereby a rough schedule:

DAY 1: Travelling from camp to Vic Falls through Botswana to Zimbabwe (In the past we encountered Elephant, Lion and general game en-route) This is like driving through a wild gamepark.

DAY 2&3: In Victoria Falls - Helicopter ride, see Falls, Sunset boat Cruise, Have a traditional dinner (this includes African dancers and local game meat etc.) Full day in Chobe; Half day on the Chobe river and an afternoon game drive in an open safari vehicle in the Chobe National Park.

DAY 4: Curio Shopping and noon fly out to Johannesburg. About a 2.5 hour flight. You will conveniently be in time for your connecting flight back to the USA.
